

THE ELECTRICITY (VARIATION TO THE SUPPLY OF ELECTRICITY) ORDER

(Section 67)

G.N. No. 83 of 1966

The Authority to Generate Electricity dated the December, 1958 granted to Williamson Diamonds Limited by the then Governor under section 67 of the Electricity Ordinance now incorporated in the Electricity Act *(1) as section 72 is hereby varied as follows—

1. The maximum supply of electricity which the Grantee may generate and transmit for own use shall be 12000 kW instead of 8000 kW.

2. In addition to the Authority granted to the Grantee to generate and transmit electrical energy for its own use the Grantee shall have authority—

- (a) to supply and sell such energy to the New Alamasí, 1963 Limited at the Alamasí Mine, Shinyanga, and to charge for the said energy at a rate not exceeding the cost of generation; and
- (b) to supply and sell such to TANESCO, Secondary School and persons resident on the Rights of Occupancy shown in the First Schedule and to charge for the said at a rate not exceeding the cost of production, and the authority granted to supply and sell such to the former Alamasí Limited shall be deemed to have expired.

3. In lieu of the land office titles set out in the First Schedule there shall be substituted the following land office numbers—

20864, 26470, 17554, 25332 and 19392.

4. In lieu of the plants and works set out in the Second Schedule there shall be substituted—

"7 diesel-operated generating sets-voltage 3.3 k.v. capacity: 900 kW per set;

2 diesel-operated generating sets-voltage 3.3 k.v. capacity: 3,000 kW per set

together with ancillary, transmission and distribution lines."

5. The Fourth Schedule shall cease to have effect.
