

REF: PPR/11 - 2/10

**PUBLIC NOTICE ON CAP PRICES FOR PETROLEUM PRODUCTS EFFECTIVE
MONDAY, 24TH OCTOBER 2011**

The Energy and Water Utilities Regulatory Authority (EWURA) hereby publishes bi-weekly cap prices for petroleum products in the Tanzania Mainland local market. These retail and wholesale prices are applicable effective **Monday 24th October 2011**. Kindly take note of the following.

- (a) Petroleum products retail and wholesale prices for all products, in the Tanzania Mainland local market have changed compared with the last prices publications of 10th October 2011. Retail prices for all products have decreased, as follows: Petrol TZS (69.34)/litre or (3.36%), Diesel TZS (35.54)/litre or (1.76%) and Kerosene TZS (20.49)/litre or (1.04%). The prices change has been caused by changes in the world market prices and a depreciation of the Tanzanian Shilling compared to the US dollar (the currency in which purchases of products in the international oil market are made). Prices for all products would have further decreased had it been not because of the continued depreciation of the shilling that has weakened by 2.39% compared to the rate that was in the last publication. Changes in wholesale prices for the same period are as follows: Petrol TZS (69.33)/litre or (3.47%), Diesel TZS (35.54)/litres or (1.82%) and Kerosene TZS (20.49)/litre or (1.07%).
- (b) In line with the prevailing sector legislation, prices of petroleum products are governed by rules of supply and demand. EWURA shall continue to encourage competition in the sector by making available petroleum products pricing information including price cap. This information on prices is intended to enable stakeholders to make informed decisions on petroleum prices at any particular time.
- (c) Oil marketing companies are free to sell their products at a price that give them competitive advantage, provided that such **price does not exceed the price cap for the relevant product. The approved formula was gazetted through Government Notice No. 5 of 9th January 2009 and amendments made through Government Notice No. 216 of 29th July 2011.**
- (d) All petrol stations should publish petroleum product prices on clearly visible boards. The price boards should be clearly visible and should clearly show prices charged, discounts offered as well as any trade incentives or promotions on offer. Consumers are advised to purchase from those that sell products at the most competitive prices. **It is an offence not to have prices published on boards located in clearly visible places in front of petrol stations and it will attract punitive measures from EWURA.**
- (e) Retailers must issue receipts with respect to all sales that they make and consumers are advised to **demand and keep receipts** that clearly show the name of petrol station, date on which such purchase was made as well as, the type of fuel and price per litre for every purchase they make.

This can be used as an exhibit in case of a complaint lodged in the event that the selling price is above the cap price or in case the products sold are off the approved specifications.
