

**REF: PPR/18 - 04/1**

**PUBLIC NOTICE ON CAP PRICES FOR PETROLEUM PRODUCTS EFFECTIVE  
WEDNESDAY, 4<sup>th</sup> APRIL 2018**

The Energy and Water Utilities Regulatory Authority (EWURA) hereby publishes Cap Prices for petroleum products, applicable in Tanzania Mainland. These retail and wholesale prices are applicable effective **Wednesday, 4<sup>th</sup> April 2018**. Hereinafter, kindly, take note of the following:

- (a) Retail and wholesale prices for all petroleum products imported in the country through Dar es Salaam port, have increased compared to prices that were published on 7<sup>th</sup> March 2018. For the month of April 2018, retail prices of Petrol, Diesel and Kerosene have increased by TZS 88/litre (equivalent to 3.95%), TZS 71/litre (equivalent to 3.34%) and TZS 95/litre (equivalent to 4.62%) respectively. Similarly, compared to the last month publication, wholesale prices of Petrol, Diesel and Kerosene have also increased by TZS 88.04/litre (equivalent to 4.16%), TZS 71.27/litre (equivalent to 3.52%) and TZS 95.02 (equivalent to 4.88%) respectively. The increase in local prices of petroleum products is mainly due to changes in the world oil market prices as well as increases in BPS premium, demurrage and depreciation of the Tanzanian Shilling against the United States Dollar, the currency used in the procurement of petroleum products.
- (b) Retail and wholesale prices for Diesel imported in the country through Tanga port have also increased compared to prices that were published on 7<sup>th</sup> March 2018. Petrol and Kerosene prices in Tanga region remain unchanged because there was no new consignment of either Petrol or Kerosene imported through Tanga port in the month of March 2018. For the month of April 2018, retail prices of Diesel **in the Northern regions** have increased by TZS 8/litre (equivalent to 0.37%). Likewise, wholesale prices of Diesel have increased by TZS 7.81/litre (equivalent to 0.39%). The increase in prices of Diesel in Tanga region is attributed to the increase in the world oil market prices and depreciation of the Tanzanian Shilling against the United States Dollar, the currency used in the procurement of petroleum products. Retail and wholesale prices for Petrol and Kerosene sold in the Northern regions for the month of April 2018 will remain as it was in the month of March 2018.
- (c) It should be noted that, all Petrol and Diesel consignments received through Dar es Salaam port in the month of March 2018 were to have been received in the months of February 2018 and whose costs are based on the world oil market prices of January 2018. The world market prices for Petrol and Diesel in January 2018 increased by 7.5% and 8.0% respectively when compared to the prices of December 2017. Likewise, two Kerosene consignments were received through Dar es Salaam port in the month of March 2018 where one consignment was to have been received in February 2018 based on the world oil market prices of January 2018 which are 7.7% higher than those of December 2017 while the second consignment received

in March 2018 is based on the world oil market prices of February 2018 which are only 1.4% lower than those of January 2018.

- (d) The Authority would like to remind the public that these cap prices can be accessed through mobile phones by dialling **\*152\*00#** and then following the provided instructions. This service is free of charge and is available in all mobile phone service providers in the country.
- (e) In line with the prevailing sector legislation (**Petroleum Act, 2015, section 166**), prices of petroleum products are governed by rules of demand and supply. EWURA shall continue to encourage competition in the sector by making available petroleum products pricing information including cap prices. This information on prices is intended to enable stakeholders make informed decisions on petroleum prices at any particular time.
- (f) Oil Marketing Companies are free to sell their products at a price that gives them a competitive advantage provided that, such **price does not exceed the price cap for the relevant product as was computed using the approved formula, which was gazetted through the Government Notice No. 216 published in May 2017.**
- (g) All petrol stations are required to publish petroleum product prices on clearly visible boards. The price boards should clearly show prices charged, discounts offered as well as any trade incentives or promotions on offer. Consumers are encouraged to purchase from stations that sell products at the most competitive prices and offer better services. **It is an offence not to have prices published on boards located in clearly visible places in front of petrol stations and it will attract punitive measures from EWURA.**
- (h) Retailers must issue receipts printed from an Electronic Fiscal Pump Printer (EFPP) with respect to all sales that they make and consumers are required to **demand and keep those receipts** that clearly show the name of petrol station, date on which such purchase was made as well as, the type of petroleum product (fuel) and price per litre for every purchase they make. This can be used as an exhibit in case of a complaint lodged in the event that the selling price is above the cap price or in case the products sold do not meet the approved specifications and also, provide an assurance that appropriate government taxes on petroleum products purchased are fully accounted for recovery from the Retailers.
