

REF: PPR/18 - 08/1

**PUBLIC NOTICE ON CAP PRICES FOR PETROLEUM PRODUCTS EFFECTIVE
WEDNESDAY, 1st AUGUST 2018**

The Energy and Water Utilities Regulatory Authority (EWURA) hereby publishes Cap Prices for petroleum products, applicable in Tanzania Mainland. These retail and wholesale prices are applicable effective **Wednesday, 1st August 2018**. Hereinafter, kindly, take note of the following:

- (a) Retail and wholesale prices for all petroleum products imported in the country through Dar es Salaam port have changed compared to prices that were published on 4th July 2018. For the month of August 2018, retail prices of Petrol and Diesel have decreased by TZS 25/litre (equivalent to 1.04%) and TZS 38/litre (equivalent to 1.62%) respectively while that of Kerosene has increased by TZS 78/litre (equivalent to 3.58%). Similarly, compared to the publication of last month, wholesale prices of Petrol and Diesel have also decreased by TZS 24.98/litre (equivalent to 1.09%) and TZS 37.68/litre (equivalent to 1.71%), respectively. The changes in local prices of petroleum products is mainly due to decreases in BPS premium and changes in the world oil market prices as highlighted below:
- i. in the computation of August 2018 local prices, 4 out of the 5 Petrol and Diesel consignments received in July 2018 had the contractual world market prices of June 2018, which is lower than that of May 2018 which was considered in the computation of July 2018 local prices.
 - ii. in the computation of August 2018 local prices, the kerosene consignment that was received in July 2018 had the contractual world market prices of May 2018. It is worth noting that, the last kerosene consignment received through Dar es Salaam port was in May 2018 and its contractual world market prices was that of April 2018 which is lower than that of May 2018.
- (b) There was no new consignment of petroleum products imported through Tanga port in the month of July 2018. Hence, in August 2018, the prices of petroleum products in the Northern regions remain the same as were in July 2018. The petroleum products were last received at Tanga port in May 2018 where its world market prices were those of March 2018. Moreover, due to the depletion of kerosene in Tanga storage terminal, Petrol Station Operators in the Northern regions are advised to get the product from Dar es Salaam and therefore, the retail price of Kerosene for the Northern regions will be based on the cost of the product received through Dar es Salaam port and bridging cost to Northern regions.
- (c) Moreover, there was no new consignment of petroleum products imported through Mtwara port in the month of July 2018. Hence, in August 2018, the prices of petroleum products in the Mtwara region remain the same as they were in July 2018. The petroleum products were last received at Mtwara port in June 2018 where its world market prices were those of May 2018. Furthermore, due to the excess of petroleum products at Mtwara storage terminals, prices of petroleum products for Ruvuma region have been computed based on the cost of the products received through Mtwara port and the bridging cost to Ruvuma region. Therefore, Petrol Station Operators in the Mtwara and Ruvuma regions are advised

to get Petrol and Diesel from Mtwara storage terminals. Since there is no kerosene at Mtwara storage terminals, Petrol Station Operators in the Mtwara region are also advised to source the product from Dar es Salaam and therefore, the retail price of Kerosene for the Mtwara and Ruvuma regions will be based on the cost of the product received through Dar es Salaam port and bridging cost to the regions.

- (d) The Authority would like to remind the public that these cap prices can be accessed through mobile phones by dialling ***152*00#** and then following the provided instructions. This service is free of charge and is available in all mobile phone service providers in the country.
- (e) In line with the prevailing sector legislation (**Petroleum Act, 2015, section 166**), prices of petroleum products are governed by rules of demand and supply. EWURA shall continue to encourage competition in the sector by making available petroleum products pricing information including cap prices. This information on prices is intended to enable stakeholders make informed decisions on petroleum prices at any particular time.
- (f) Oil Marketing Companies are free to sell their products at a price that gives them a competitive advantage provided that, such **price does not exceed the price cap for the relevant product as it is computed using the approved formula, which was gazetted through the Government Notice No. 269 published in June 2018.**
- (g) All petrol stations are required to publish petroleum product prices on clearly visible boards. The price boards should clearly show prices charged, discounts offered as well as any trade incentives or promotions on offer. Consumers are encouraged to purchase from stations that sell products at the most competitive prices and offer better services. **It is an offence not to have prices published on boards located in clearly visible places in front of petrol stations. Failure to adhere to this directive will attract punitive measures from EWURA.**
- (h) Retailers must issue receipts printed from an Electronic Fiscal Pump Printer (EFPP) with respect to all sales that they make and consumers are required to **demand and keep those receipts** that clearly show the name of petrol station, date on which such purchase was made as well as, the type of petroleum product (fuel) and price per litre for every purchase they make. This can be used as an exhibit in case of a complaint lodged in the event that the selling price is above the cap price or in case the products sold do not meet the approved specifications and also, provide an assurance that appropriate government taxes on petroleum products purchased are fully accounted for recovery from the Retailers.

A: RETAIL PRICES

Town	Cap Prices		
	Petrol (TZS/Litre)	Diesel (TZS/Litre)	Kerosene (TZS/Litre)
Dar es Salaam	2,384	2,292	2,271
