1 INTRODUCTION

EWURA has the legal authority and is mandated, according to Section 124 of the Petroleum Act of 2015, is to establish and maintain a National Petroleum and Gas Information System (NPGIS) as a strategic planning tool in the energy sector for the Government of the United Republic of Tanzania. Softnet Technologies has been contracted to implement the NPGIS.

2 PROCESSING PLANTS MODULE

This module is used by all the processing plants operators to record their daily plants activities and submit to EWURA for record tracking, these activities include

- Gas Production records
- · Condensate sales records
- Plant HSE Incidents records
- Plant Operations & Maintenance records

3 SYSTEM ACCESS

The NPGIS is hosted at the secure site: https://npgis.ewura.go.tz/. To begin using the system, the Plants Operator (User) should visit the site using a web browser and login using the designated credentials to begin using the system. Upon successful connection to the hosting site the system will be redirected to the landing Page as seen below
