

GOVERNMENT NOTICE NO. 966 published on 6/12/2019

THE PETROLEUM ACT  
(CAP. 392)

*(Made under section 259(1)(a))*

THE PETROLEUM (NATURAL GAS) (STORAGE) RULES, 2019

ARRANGEMENT OF RULES

PART I  
PRELIMINARY PROVISIONS

1. Citation and commencement
2. Application
3. Interpretation

PART II  
APPLICATION FOR A CONSTRUCTION APPROVAL

4. Application for construction approval
5. Publication of construction applications
6. Grant of a construction approval
7. Duration of construction approval
8. Notice of commencement
9. Construction approval obligations
10. Withdrawal, revocation, suspension or amendment of construction approval

PART III  
LICENSING PROCEDURES

11. Obligation to obtain licence
12. Application for licence
13. Inquiry
14. Publication of licence application
15. Grant of licence
16. Refusal of licence

17. Validity and duration of licence
18. Application for transfer of licence
19. Change of name of licensee
20. Change of shareholding of licensee
21. Modification of licence
22. Application for renewal of licence
23. Suspension of licence
24. Revocation of licence

PART IV  
SUB-PART I  
OBLIGATIONS OF A LICENSEE

25. General obligations of licensee
26. Tariff
27. Third party access and unused storage capacity
28. Transshipment to authorized persons

SUB-PART II  
TECHNICAL OBLIGATIONS OF A LICENSEE

29. Technical obligations of licensee

PART V  
CONSTRUCTION

30. Construction contract requirements

PART VI  
OPERATIONS AND MAINTENANCE

31. Operations
32. Compliance with specifications and standards
33. Safety requirements
34. Fire precaution
35. Occurrence of hazardous situation or act
36. Suspension of operations
37. Operations and maintenance manual
38. Decommissioning procedure
39. Site restoration

PART VII

EMERGENCY RESPONSES

- 40. Emergency response plan
- 41. Control and response to gas leakage

PART VIII

RECORDS, REPORTING AND INFORMATION

- 42. Records keeping
- 43. Maintenance of records, provision and disclosure of information
- 44. Obligation to provide information to NPGIS

PART IX

GENERAL PROVISIONS

- 45. Staffing plan and training program
- 46. Inspections
- 47. Compliance audit
- 48. Health, safety and environment
- 49. Visitors
- 50. Compensation for loss suffered
- 51. Confidential information
- 52. Investigation of facility
- 53. Power to enter for inspection and close facility
- 54. Prohibited acts against inspectors
- 55. Transitional provision
- 56. Penalties and remedial measures
- 57. Appeal
- 58. Revocation

PART I  
PRELIMINARY PROVISIONS

Citation and commencement	1. These Rules may be cited as the Petroleum (Natural Gas) (Storage) Rules, 2019 and shall come into operation upon publication in the <i>Gazette</i> .
Application	2. These Rules shall govern the activities related to gas storage activities and related matters in Mainland Tanzania.
Interpretation	3.-(1) In these Rules, unless the context otherwise requires: “Act” means the Petroleum Act; “applicable law” means any principal law, treaty, convention, proclamation, regulation, rule, order or by-law that is customarily treated in Tanzania as having legally binding force and which is relevant to matters pertaining to the regulation of gas activities; “approved specification” means any specification or standard in relation to a gas product applied by the Authority and as approved by the Tanzania Bureau of Standards pursuant to the Standards Act, or any other standards that are widely used for best international petroleum industry practices; “Authority” means the Energy and Water Utilities Regulatory Authority established under the provisions of the EWURA Act; “best international petroleum industry practices” means practices in accordance with the most up to date international standards that are generally accepted in the international gas industry for the conduct of gas storage activities taking into account the relevant safety, economic, technological and environmental aspects; “Council” means the National Environment Management Council established under the provisions of the Environment Management Act; “compliance order” means an order issued by the Authority pursuant to section 39 of the Energy and Water Utilities Regulatory Authority Act;
Cap. 392	
Cap. 130	
Cap. 414	
Cap. 191	
Cap. 414	

Cap. 414

“EWURA Act” means the Energy and Water Utilities Regulatory Authority Act;

“facility” means a facility designed and constructed for the storage of gas and includes storage tanks or vessels, connecting pipelines, buildings and firefighting systems;

“gas” shall have the meaning ascribed to it under the Act;

“gas leakage” means a non-expected release of gas from a facility or other containment into a living area or any other area and which may create a hazardous situation;

“Government” has the meaning ascribed to it under the Act;

“hazardous situation” means a situation involving gas that:

- (a) endangers the safety or health of a person, or the safety of a person’s property; or
- (b) creates an eminent risk of significant environmental harm;

“incident” means:

- (1) an event that involves a release of gas from a gas leakage that results in one or more of the following consequences:
  - (a) death, or personal injury necessitating patient hospitalization as a consequence of an action that is related to a licensed activity;
  - (b) estimated property damage of one hundred million (100,000,000) Tanzanian Shillings or more, including loss to the operator and others, or both, but excluding cost of gas lost;
  - (c) unintentional estimated gas loss of three million cubic feet or more;
- (2) an event that results in an emergency shutdown of the facility;
- (3) an event that is significant in the judgement of the licensee, even though it did not meet the criteria of paragraphs (1) or (2) of this definition; or
- (4) any other significant event that may adversely affect the conduct of a licensed activity;

“inspector” means an officer of the Authority or an agent of the Authority appointed by the Authority to perform the functions of inspection as required under the Act and applicable law;

“integrity pledge” has the meaning ascribed to it under the Act;

“licence” means a licence issued by the Authority to undertake a regulated activity, granted under these Rules;

“licence fee” means a fee payable by a licensee as prescribed by the Authority from time to time;

“licensed activity” means a regulated activity in respect of which a licence has been issued;

“licensee” means a holder of a licence or a prospective licensee;

“Minister” means the minister responsible for petroleum affairs;

“National Oil Company” or “NOC” has the meaning ascribed to it under the Act;

“natural gas” has the meaning ascribed to it under the Act;

“NPGIS” has the meaning ascribed to it under the Act;

“regulated activity” means the operation of a facility and includes any activity reasonably required in connection with the operation of a facility;

Cap. 130

“standards” means any specification or standards in relation to gas applied by the Authority and as approved by the Tanzania Bureau of Standards pursuant to the Standards Act, or any other standards that are widely used for best international petroleum industry practices;

“storage” means receiving, holding and delivering gas at fixed facilities other than liquefaction, re-gasification or pipeline facilities;

“supervisor” means the operator or other person responsible for the management and monitoring of a facility and is deemed to be authorized to:

(a) grant inspectors access to facility, answer questions and witness the taking of samples and the carrying out of inspections; and

(b) identify physical defects and operational deficiencies within the facility and, as required, take decisions related to the suitability of such facility for use;

“tariff” means a charge, fee, price or rate charged for the provision of gas storage services as may be approved by the Authority.

(2) In these Rules, references to any Act, regulation, rules or other law include such Act, regulation, rules or other law as amended from time to time and any successor Act, regulation, rules or other law.

PART II  
APPLICATION FOR A CONSTRUCTION APPROVAL

Application for  
construction  
approval

4.-(1) A person shall not construct a facility without seeking and obtaining a construction approval from the Authority in a manner provided herein.

(2) The construction approval sought under this rule shall relate to:

- (a) construction of new gas storage facilities;
- (b) relocation of existing gas storage facilities;
- (c) major replacement of existing gas storage facilities; and
- (d) major repair of the existing gas storage facilities.

(3) A person who intends to construct a facility shall apply to the Authority by filling a form prescribed in the First Schedule to these Rules.

(4) The application shall be accompanied by the following:

- (a) certified copies of the applicant's Memorandum and Articles of Association;
- (b) certified certificate of incorporation or certificate of incorporation on change of name (whichever is more recent);
- (c) certified copy of the latest annual return;
- (d) details of the direct and indirect shareholders of the applicant, including the shareholdings;
- (e) the applicant's name, business address, location, telephone number, fax number and email address;
- (f) details of all participants in the project;
- (g) project feasibility study;
- (h) details of the technical and financial expertise and resources available for carrying out the regulated activity;
- (i) proof of ownership of the site or authorization of development of the site, including building permit, if any;
- (j) details of financing arrangements;
- (k) detailed estimates of total cost of the project, showing the cost of construction by operating units such as survey, materials, labour, engineering and inspections, administrative over-head, fees for legal

- Cap. 191
- and other services, allowance for funds during construction and contingencies;
  - (l) project documents including drawings, plans and design specifications of the proposed facility;
  - (m) the proposed maximum technical storage capacity of the proposed facility;
  - (n) a certified copy of the environmental clearance as required in the Environmental Management Act;
  - (o) public awareness measures;
  - (p) local content plan in accordance with applicable law;
  - (q) full project schedule;
  - (r) a non-refundable application fee as may be prescribed by the Authority; and
  - (s) any other information as may be required by the Authority.
- (5) Where the applicant is a consortium or group of persons, the information required under rule (4) shall be provided in respect of each member of the consortium.
- (6) Where information to be provided under rule 4(4) is of a factual nature, the applicant shall also submit supporting documents or as may be directed by the Authority.
- (7) Any person who contravenes subrule (1) commits an offence and shall, upon conviction, be liable to a fine of not less than twenty million Tanzanian Shillings or imprisonment for a term of not less than three (3) years or both.

Publication of construction applications

5.-(1) An application for a construction approval received by the Authority shall be evaluated to verify its completeness and the legality of the information contained therein and thereafter a notice of the application shall be published at least in two newspapers of wide circulation in Tanzania, one in English and another in Kiswahili with a view to solicit comments and representations on the application.

(2) The costs of publication of notices under subrule (1) shall be borne by the Authority.

(3) The public shall be invited to submit comments and representations to the Authority within fourteen (14) days from the date of publication of the notice and the comments and representations shall be considered by the Authority in arriving at the decision on the construction application.

Grant of  
construction  
approval

- 6.-(1) The Authority shall, after thirty (30) days from the receipt of the application for construction approval-
- (a) reject the application;
  - (b) grant the application and issue a construction approval; or
  - (c) refer back the application.
- (2) The Authority shall, while making a decision whether to grant or reject a construction approval, consider:
- (a) the applicant's compliance to land use laws;
  - (b) the applicant's compliance to health, safety and environmental requirements;
  - (c) any representations and objections to the regulated activity made by the public pursuant to subrule 5(3); and
  - (d) whether the facility provides for access to third parties.
- (3) Where the Authority refers back the application to the applicant:
- (a) the Authority may notify the applicant of any changes in the designs or specifications considered by the Authority to be necessary for reasons related to safety or environmental protection;
  - (b) the applicant may thereafter make any changes required pursuant to subrule 6(3)(a) and re-submit the application to the Authority; and
  - (c) where the application is re-submitted, rule 5 shall apply and the Authority shall proceed in accordance with subrule 6(1) in respect of the re-submitted application.
- (4) Notwithstanding the generality of subrule 6(1), the Authority may issue a construction approval with specific conditions to be fulfilled within a prescribed time to an applicant who fails to meet some of the requirements in subrule 4(4).
- (5) The Authority shall cause to be published in the *Gazette* a construction approval issued under subrule 6(1)(b).
- (6) The applicant shall, after issuance of an approval by the Authority, be notified to collect the approval.
- (7) The Authority shall, in the event that it denies an application for a construction approval, within fourteen (14) days of its decision, inform the applicant of such decision in

writing, including the reasons therefor.

Duration of construction approval

7.-(1) A construction approval issued by the Authority under these Rules shall remain in force for such period as the Authority may allow provided that, in the event the holder of the said approval fails to commence construction within twenty-four (24) months from the date the construction approval was issued, such construction approval shall cease to have effect.

(2) The Authority may, upon an application by a holder of a construction approval extend the duration of the construction approval to such period as it may think fit.

Notice of commencement

8. A person with a construction approval shall issue a notice of intention to commence construction to the Authority not less than thirty (30) days prior to the commencement of construction.

Construction approval obligations

9. A person issued with a construction approval shall, at all times, comply with technical standards and specifications specified in the Act, Regulations, these Rules, Codes and Guidelines made thereof.

Withdrawal, revocation, suspension or amendment of construction approval

10.-(1) The Authority may, by written notice, withdraw, revoke, suspend or amend any construction approval where any of the terms and conditions thereof have not been complied with.

(2) Where the Authority intends to withdraw, revoke, suspend or amend a construction approval it shall, at least twenty-one (21) days before the intended withdrawal, revocation, suspension or amendment, notify the holder of such approval about the intention and the reasons therefor.

(3) Notwithstanding the provisions of subrule 10(1) and (2), the Authority may, by notice in the *Gazette*, withdraw, suspend or revoke any construction approval on the application of or with the consent of the holder of such approval.

(4) The Authority may, by written notice, reinstate a construction approval previously withdrawn, revoked or suspended where the Authority is satisfied that the reasons for the withdrawal, revocation or suspension no longer exist.

PART III  
LICENSING PROCEDURES

Obligation to  
obtain licence

11.-(1) A person shall not conduct a regulated activity without a licence from the Authority.

(2) Any person who contravenes subrule (1) commits an offence and shall, upon conviction, be liable to a fine of not less than twenty million Tanzanian Shillings or imprisonment for a term of not less than two (2) years but not exceeding five (5) years or to both.

(3) Notwithstanding the penalty prescribed under subrule (2), the Authority may, in the event it determines that any person has contravened the provisions of subrule 11(1), enter upon the relevant facility and shut it down.

Application for  
licence

12.-(1) A person who intends to conduct a regulated activity shall apply to the Authority for a licence by filling a form as prescribed in the Second Schedule to these Rules.

(2) The application for a licence shall be accompanied by the following:

- (a) certified copies of the applicant's Memorandum and Articles of Association;
- (b) certified certificate of incorporation or certificate of incorporation on change of name (whichever is more recent);
- (c) certified copy of the latest annual return;
- (d) details of the direct and indirect shareholders of the applicant, including the shareholdings;
- (e) certified copy of tax identification number certificate;
- (f) certified copy of tax clearance certificate;
- (g) local content plan in accordance with applicable law;
- (h) duly signed integrity pledge in the form set out in the Fifth Schedule to these Rules (or as otherwise prescribed by the Authority);
- (i) an environmental impact assessment certificate or environment audit certificate as the case may be;
- (j) business plan describing the scope of the proposed licensed activity;

- (k) proof of possession of adequate skilled personnel with relevant technical skills to undertake the regulated activity;
- (l) financing plan;
- (m) list of facilities available;
- (n) commissioning report, where available;
- (o) non-refundable application fee prescribed by the Authority; and
- (p) any other information as may be required by the Authority.

Inquiry  
Cap 414

13. The Authority shall, before issuing, modifying, suspending or revoking a licence, conduct an inquiry in accordance with section 19 of the EWURA Act.

Publication of  
licence  
application

14.-(1) A licence application received by the Authority shall be evaluated to verify its completeness and the legality of the information contained therein and thereafter a notice of the application shall be published at least in two newspapers of wide circulation in Tanzania one in English and another in Kiswahili with a view to solicit comments and representations on the application.

(2) The costs of publication of notices under subrule 14(1) shall be borne by the Authority.

(3) The public shall be invited to submit comments and representations to the Authority within fourteen (14) days from the date of publication of the notice and the comments and representations shall be considered by the Authority in arriving at the decision on the license application.

Grant of  
licence

15.-(1) The Authority shall, within sixty (60) days after receiving the application:

- (a) reject the application;
- (b) grant the application and issue a licence; or
- (c) refer back the application.

(2) After issuance of a licence under subrule 15(1), the applicant shall be notified to collect it upon payment of the licence fee prescribed by the Authority.

(3) The Authority shall, in making a decision to grant or refuse a licence under subrule (1) take into consideration the following:

- (a) technical, administrative and financial capabilities

- of the applicant in relation to the regulated activity for which the licence is sought;
- (b) viability of the sources of supply of gas;
- (c) contribution of the storage regulated activity to meet future gas needs by customers;
- (d) compliance to land ownership and land use laws;
- (e) a local content plan in accordance with applicable law;
- (f) contribution of the regulated activity to competitive conditions in the gas industry;
- (g) where applicable, the effects of the proposed project on other processing, distribution or storage facilities;
- (h) methods and procedures proposed to be adopted for operating and maintaining the storage facilities or other related facilities;
- (i) technical specifications of the proposed storage facilities;
- (j) risk analysis of the regulated activity;
- (k) social and environmental impact assessment of the regulated activity;
- (l) compliance of the facility on matters including:
  - (i) safety;
  - (ii) health;
  - (iii) security;
  - (iv) handling of hazardous substances; and
  - (v) environmental.
- (m) basis for potential demand for the gas storage;
- (n) impact that regulated activity may have on health and safety of employees and the public;
- (o) cost of storage activities and the effect on gas prices to customers;
- (p) economic efficiency of the facility and benefit to the public in general of the facility;
- (q) the basis for potential demand for storage facilities;
- (r) any representations and objections to the regulated activity made pursuant to subrule 14(3);
- (s) a detailed emergency preparedness plan towards any accident or incident;
- (t) the applicant's record of compliance with the Act, these Rules and other applicable law;
- (u) public interests that may be affected by the

- regulated activity;
- (v) capital costs of the project;
- (w) assessment of economies of scale; and
- (x) any other information as may be required by the Authority.

(4) Notwithstanding the generality of subrule (3), the Authority may issue a licence with specific conditions to be fulfilled within a prescribed time to an applicant who fails to meet some of the requirements in subrule (3).

Refusal of licence

16.-(1) The Authority may reject the application for a licence for any of the following reasons:

- (a) the application does not comply with the provisions of these Rules or the Act;
- (b) the applicant submitted false information in relation to the application for a licence (or any other licence issued under the Act);
- (c) the applicant has not complied with the provisions of any licence issued under the Act;
- (d) the applicant has been convicted of corruption, money laundering, economic crimes or tax evasion;
- (e) the applicant refused to sign an integrity pledge; or
- (f) any other reason as the Authority may determine.

(2) The Authority shall, in the event that it refuses an application for a licence, within fourteen (14) days of its decision inform the applicant of such decision in writing, including the reasons thereof.

Validity and duration of licence

17.-(1) Unless otherwise revoked or suspended, every licence granted shall be valid for a period of up to twenty-five (25) years as may be determined by the Authority.

(2) Notwithstanding the provisions of subrule 17(1), the Authority may revoke a licence where the licensee:

- (a) fails to commence licenced activity for a period of six months; or
- (b) stops operation of the licenced activity for a period of six (6) consecutive months during the licence term.

(3) Notwithstanding the provisions of subrule (1), the Authority may, on the written application of a licensee, extend or reduce the period of the licence as may be determined by the Authority.

Application for  
transfer of  
licence

18.-(1) A licence shall not be assigned to or transferred from a storage licensee to another person without prior written approval of the Authority.

(2) Any transferor or assignor of a licence shall apply to the Authority by filling in the form prescribed in the Third Schedule to these Rules.

(3) The application for transfer or assignment of a licensee shall be accompanied by the following documents:

- (a) a certified copy of the transfer agreement;
- (b) the documents and items referred to in rule 12(2), in each case in respect of the transferee; and
- (c) any other information as may be required by the Authority.

(4) A licence transfer application received by the Authority shall be evaluated to verify its completeness and the legality of the information contained therein and thereafter a notice of the application shall be published at least in two newspapers of wide circulation in Tanzania one in English and another in Kiswahili with a view to solicit comments and representations on the application.

(5) The costs for publication of the notice under subrule (4) shall be borne by the Authority.

(6) The public shall be invited to submit comments and representations within fourteen (14) days from the date of publication of the notice and the comments and representations shall be considered by the Authority in arriving at the decision on the application.

(7) The Authority shall, after the expiration of the notice in subrule (4), evaluate the application together with comments received, if any, and make a decision within sixty (60) days of the application whether to grant or refuse the application for transfer or assignment of the licence as the case may be.

(8) The Authority shall, in making a decision to grant or refuse the transfer or assignment of the licence under subrule (7) take into consideration the following:

- (a) technical, administrative and financial capabilities of the transferee in relation to the licensed activity;
- (b) the transferee's compliance to land laws;
- (c) the transferee's local content plan in accordance with applicable law;

- (d) the transferee's record of complying with the Act, these Rules and other applicable law; and
- (e) any other information or issues determined to be relevant by the Authority.

(9) Where the Authority grants the application for transfer or assignment of the licence under subrule (7), the applicant shall be notified to come and collect it.

(10) Notwithstanding subrule (4), no application for a transfer or assignment of a licence shall be evaluated by the Authority unless it is endorsed by the intended transferee or assignee of the licence.

(11) Where a licence is transferred or assigned in accordance with these Rules:

- (a) the transferee or assignee shall comply in all respects with applicable law and with the terms and conditions of the licence, and shall not alter in any way the approved arrangements of the relevant facility without the prior written approval of the Authority, nor use such facility for any other purpose than those prevailing at the time the licence is transferred;
- (b) the licence shall continue in force in all respects; and
- (c) obligations and liabilities of the transferor in respect of the licence whether past, present or future and whether existing, accrued, contingent or unknown shall, to the extent that the licence is transferred or assigned, become obligations and liabilities of the transferee.

Change of name  
of licensee

19. A licensee who has changed its name shall notify the Authority in writing within fourteen (14) days after such change, and shall be accompanied by a certificate of change in name issued by the Registrar of Companies.

Change of  
shareholding of  
licensee

20.-(1) Where the direct or indirect ownership of shares, voting rights or interests, in a licensee is proposed to be changed, the licensee shall, no less than sixty (60) days prior to such proposed change, notify the Authority in writing about such change and shall submit an application in the form prescribed Third Schedule to these Rules together with:

- (a) a copy of any agreement or instrument by which

- any shares are proposed to be transferred;
- (b) the documents and items referred to in rule 12(2), in each case in respect of the licensee and its direct and indirect shareholders; and
- (c) any other information as may be required by the Authority.

(2) The Authority shall evaluate the application and notify the licensee within thirty (30) days of whether it consents to the proposed change in shareholding. The Authority shall, in making a decision whether to consent to the proposed change in shareholding, take into account the following:

- (a) technical, administrative and financial capabilities of the licensee and its direct and indirect shareholders in relation to the licensed activity;
- (b) the licensee's and its direct and indirect shareholders' compliance to land laws;
- (c) the licensee's local content plan in accordance with applicable law;
- (d) the licensee's and its direct and indirect shareholders' record of compliance with the Act, these Rules and other applicable law; and
- (e) any other information or issues determined to be relevant by the Authority.

(3) Where the Authority consents to the proposed change in shareholding, the licence shall remain valid in accordance with the terms and conditions on which it was previously granted, save that consent by the Authority to a proposed change in shareholding shall not relieve a licensee or its direct or indirect shareholders from any obligations under applicable law in relation to such change.

(4) Where the Authority declines to accept the proposed change in shareholding, and the change in shareholding subsequently occurs, the Authority may suspend or revoke the licence in accordance with the provisions of these Rules.

Modification of  
licence

21.-(1) The Authority may, on its own motion or upon application by a licensee, modify any terms and conditions of a licence, along with such fees as prescribed by the Authority.

(2) A licensee who intends to relocate a licensed facility or part thereof shall make an application for the relocation to the Authority in writing by filling application form prescribed in the Fourth Schedule to these Rules.

(3) Where the Authority approves the application for the modification of a licence, it shall notify the licensee in writing within fourteen (14) days of its decision.

(4) Where the Authority rejects the application for the modification of a licence, it shall notify the licensee in writing within fourteen (14) days of its decision, including the reasons thereof.

(5) In the event the Authority acts on its own motion to modify the terms and conditions of any licence, it shall give at least sixty (60) days' notice to the licensee of its intention to modify the licence.

Application for  
renewal of  
licence

22.-(1) A licensee who wishes to renew a licence may, at least six months before expiration of the licence, apply to the Authority for renewal of the licence.

(2) A renewal of a licence shall be granted for a maximum period of fifteen (15) years, or for such longer period as may be determined by the Authority.

(3) A licensee who intends to make an application for a renewal of a licence shall apply to the Authority in writing by filling in an application form prescribed in the Second Schedule to these Rules. Such application form shall be accompanied by tax clearance certificates and other documents as the Authority may require.

(4) The Authority shall, while making a decision whether to grant or refuse an application for renewal of a licence, consider the applicant's compliance with the conditions of the licence which is due to expire, the Act, these Rules and applicable law.

(5) The Authority shall, in the event it rejects an application for renewal of a licence, inform the applicant of such decision in writing within sixty (60) days of such decision, including the reasons there for.

(6) Notwithstanding the provisions of subrule 22(4), the Authority shall not renew the licence of a licensee who has, during the term of the licence which is due to expire, resisted or failed to comply with any lawful order given by the Authority to the said licensee.

Suspension of  
licence

23.-(1) The Authority may suspend a licence where-

(a) the licensee violates any terms or conditions of the

licence or any provision of the applicable law relating to protection of occupational health; or

- (b) there is a change in the shareholding structure of the licensee which has not been approved in advance by the Authority.

(2) The Authority shall not suspend a licence, unless a written notice of the intention to suspend it is issued to the licensee at least twenty-one (21) days before such suspension.

(3) Upon suspension of a licence, the Authority shall specify in writing the period of suspension, during which the licence shall be of no legal force or effect.

(4) Notwithstanding subrule (1), the Authority may waive the licence suspension if it is satisfied that a licensee has abstained from the act or omission that caused the suspension and the reason for the suspension no longer exists.

Revocation of  
licence

24.-(1) The Authority shall revoke a licence where the licensee:

- (a) violates any of the provisions of the Act or the conditions attached to the licence which affects the conduct of the regulated activity;
- (b) obtains a licence by fraud or deliberate submission of false information or statements;
- (c) fails to comply with obligations conferred within the terms stated in the licence;
- (d) persistently fails to comply with the approved local content plans;
- (e) interrupts services to other users without authorization of the Authority;
- (f) carries on business in a manner that is detrimental to the welfare or interest of other users;
- (g) violates the tariffs, rates and charges established by the Authority;
- (h) persistently fails or refuses to submit information to the NPGIS;
- (i) fails to comply with the applicable health, safety, service, quality or environmental standards, or any other additional standards as may be stated in the licence; or
- (j) is convicted or found guilty of any offence relating

to corruption, money laundering, economic crimes or tax evasion.

(2) The Authority may revoke a licence where there is a change in the shareholding structure of the licensee which has not been approved in advance by the Authority.

(3) Upon revocation of a licence under subrule (1), the Authority shall notify the licensee in writing the revocation and effective date of the order from which the licence shall no longer be of any legal force or effect.

(4) A licensee shall, within fourteen (14) days of receiving an order of revocation, return the licence to the Authority.

(5) Any person whose licence has been revoked pursuant to the provisions of subrule (1) shall not be eligible for issuance of a licence for a period of twenty-four (24) months from the date of revocation.

(6) The rights and powers of the Authority set out in these Rules shall be without prejudice to any rights and powers of the Authority set out in the Regulations or rules governing the inspection and monitoring of facilities.

#### PART IV

##### SUB-PART I

##### OBLIGATIONS OF A LICENSEE

General obligations of licensee

25. A licensee shall at all times:

- (a) comply with:
  - (i) these Rules;
  - (ii) the Act;
  - (iii) any applicable law;
  - (iv) guidelines, orders and directions of the Authority;
  - (v) the terms and conditions of the licence;
  - (vi) applicable codes and standards on safety, hazardous substances, security, health and environment; and
  - (vii) best international petroleum industry practices;
- (b) undertake reliable and safe gas storage services;
- (c) provide efficient and effective services consistent with the principles of uniformity, homogeneity,

- regularity, safety, timeliness and continuity;
- (d) operate and maintain the facility, and conduct its licensed activity in accordance with the applicable standards and in a manner that does not endanger public health, safety or environment;
- (e) serve prompt notice to the Authority concerning any event that requires modification of conditions under the licence for provision of the licensed activity;
- (f) not engage in any activity that impedes or may impede either proper implementation of the licensed activity or any licensed activity of other licensees;
- (g) ensure management of the licensed activity in a manner consistent with the principles of ensuring technical expedience and the objective of achieving the highest quality of gas storage services;
- (h) procure and maintain valid insurance cover against any liability that the licensee may incur in constructing or operating a facility:
  - (i) in compliance with relevant applicable insurance law; and
  - (ii) during the full term of its licence period;
- (i) carry out all works related to the facility in accordance with best international petroleum industry practices;
- (j) adhere to the approved local content plan;
- (k) inform the Authority as soon as practicable, but in any event not more than one hour after the occurrence of a hazardous situation or incident related to its licensed activity, occurring within its facility, provided that a detailed report including the steps taken or proposed to be taken to remedy such situation or to eliminate or minimize the hazard arising from such situation be submitted within time as stipulated in the emergency response plan prepared under these Rules;
- (l) when the facility is left unattended, ensure that it is left in the safest possible condition;
- (m) employ a sufficient number of qualified personnel to ensure that the conduct of its licensed activity complies with these Rules;

- (n) pay all applicable fees;
- (o) submit to the Authority correct formal data, records, samples and information as the Authority may require;
- (p) submit to the Authority the quantity of gas stored on a daily basis;
- (q) print its licence number on all accounting documents employed in its licensed activity, including invoices, delivery notes and receipts;
- (r) notify the Authority and its customers in writing thirty (30) days prior to a planned disruption of a licensed activity;
- (s) notify the Authority for approval at least thirty (30) days before it installs additional facilities related to its regulated activity;
- (t) notify the Authority and its customers in writing prior to decommissioning a facility in accordance with Rule 40;
- (u) accord full cooperation to the Authority during any inspection, investigation or monitoring exercise over the facility;
- (v) establish and maintain records pursuant to these Rules, the Act, any applicable law and the orders and directions of the Authority;
- (w) provide the Authority with full access to its records, documents, sites and assets pursuant to these Rules and applicable law;
- (x) not to keep any source of ignition or any other instruments or products in or near a facility that might pose a risk of fire or otherwise;
- (y) ensure the availability of adequate fire-fighting equipment;
- (z) not to abandon a facility other than in accordance with the Act, these Rules, the licence conditions, any applicable law and the orders and directions of the Authority;
- (aa) ensure that a facility equipment is calibrated for correct measurements and are in good working condition in accordance with required standards and best international petroleum industry practices;
- (bb) ensure that a supervisor is present at a facility at all times, and in his absence any person employed or

- acting as an agent of a licensee at a facility shall perform the duties of a supervisor;
- (cc) display in a conspicuous place at a facility a licence or a certified copy thereof; and
  - (dd) as soon as practicable, but in any event not later than thirty (30) days after it becomes aware of the fact, notify the Authority:
    - (i) if it is unable to conduct its licensed activity; or
    - (ii) where the conduct of its licensed activity would or might lead to the breach of any of these Rules or materially affect its operation.

Tariff

26. A licensee shall charge customers a tariff for storage as approved by the Authority in accordance with the Energy and Water Utilities Regulatory Authority (Tariff Application and Rates Setting) Rules, 2017 and shall obtain the approval of the Authority for tariffs charged.

Third party  
Access and  
unused storage  
capacity

27.-(1) A licensee shall utilise or offer the maximum technical storage capacity of the facility in respect of which it holds a licence.

(2) A licensee shall provide third party access to the facility in respect of which it holds a licence as required by any applicable law governing the provision of third party access and usage rights to facilities.

Transshipment  
to authorized  
persons

28.-(1) Where the terms of the construction approval and licence issued for the relevant facility permit the trans shipment of gas, the licensee shall provide trans shipment to authorized persons.

(2) For the purposes of subrule (1), “authorized persons” shall mean persons holding an appropriate licence issued pursuant to the Act, the terms of which licence permit the relevant person to deal with the gas which is to be trans shipped.

(3) Notwithstanding the generality of subrule (1), the trans-shipment of gas from a licensee to an authorized person shall be subject to agreement of commercial terms between the licensee and the authorized person in accordance with any applicable law governing the provision of third party access and usage rights to facilities.

SUB-PART II  
TECHNICAL OBLIGATIONS OF A LICENSEE

Technical obligations of licence

29. A licensee shall at all times:
- (a) maintain the highest gas quality and standard throughout the facility;
  - (b) submit, in the format required by the Authority, the technical specifications of the facility;
  - (c) prepare and maintain a manual containing procedures for storage operations, corrosion control, integrity management, operations and maintenance, way leave management, effective leakage management, safety work permit or any other information as may be required by the Authority;
  - (d) ensure it has conducted training exercises in carrying out emergency response plans;
  - (e) ensure it is capable of adequately responding to gas leakages;
  - (f) ensure that it decommissions a facility pursuant to these Rules and applicable law;
  - (g) ensure that a facility and related equipment are calibrated, recalibrated, or functional checks of the equipment performed, for correct measurements, and are in good working condition in accordance with manufacturer's specifications, required standards and best international petroleum industry practices; and
  - (h) promptly notify the Authority of any gas unaccounted for.

PART V  
CONSTRUCTION

Construction contract requirements

30.-(1) Where a person contracts for the provision of services in respect of the construction of a facility, the contract shall:

- (a) require the contractor and the subcontractors to be fully informed of and to comply with the requirements of these Rules applicable to the construction of the facility and of the licensee's (or applicant's, where the relevant licence has not yet

been granted) prescribed policies and procedures to the extent that they are applicable to the construction of the facility; and

- (b) impose on the person an obligation to appoint as its safety officer an individual having sufficient expertise, knowledge and training to carryout competently the duties described in subrule (2).

(2) A person appointed under subrule (1)(b) shall have a duty to regularly monitor the construction of the facility and to halt any activity in circumstances where, in the safety officer's opinion, the activity is creating hazard to the public or personnel at the construction site or to the environment.

## PART VI

### OPERATIONS AND MAINTENANCE

#### Operations

31.-(1) A licensee of a facility shall take all reasonable steps to ensure that:

- (a) operating activities at the facility are not detrimental to the environment or a hazard to the safety of persons that is greater than the detriment or hazard normally associated with identical activities carried on elsewhere;
- (b) no equipment is operated with a hazard-detection alarm or shutdown device that is bypassed or rendered inoperable; and
- (c) data recorded at the facility are retained for an alysis in the event of an incident or near-miss.

(2) The licensee of a facility shall:

- (a) test all hazard-detection devices as part of regular maintenance activities to determine whether they are fully functional;
- (b) document and maintain records of all testing, repairs and replacement of parts in the hazard-detection devices;
- (c) clearly mark the open and closed positions of main emergency shutdown valves;
- (d) post signs along the site boundaries of its facility indicating the name of the licensee and the telephone number to call in the event of an emergency at the facility; and

- (e) post warning signs of potential hazards.

Compliance  
with  
specifications  
and standards

32.-(1) A licensee shall comply with the approved specifications and standards pertaining to gas, material, design, construction, testing, operation, maintenance and equipment which are consistent with these Rules and applicable law.

(2) A licensee shall not deviate from any approved specification without prior approval of the Authority, and the Authority shall not grant such approval unless it is satisfied that such deviation is for public interest and will not negatively affect public safety, the environment or the facility.

(3) A licensee of a facility shall not alter the facility to change its design, specifications or relocate, unless an application in respect to the change is submitted to the Authority in the form prescribed in the Fourth Schedule to these Rules and approved by the Authority.

Safety  
requirements

33. A licensee shall equip its facility with:

- (a) a source of emergency power;
- (b) systems that are appropriate to its buildings or structures and that are redesigned for the detection of:
  - (i) explosive and flammable gases;
  - (ii) toxic or noxious gases; and
  - (iii) fire, the products of combustion or temperature rise;
- (c) alarm devices that are:
  - (i) located where they can be heard or seen from all locations within the facility; and
  - (ii) designed in a manner that will allow a timely warning of danger to be given to persons in the facility or in the vicinity of the facility in order to permit safe evacuation or actions to control the danger.

Fire precaution

34.-(1) A licensee shall, when taking precautions to prevent fire out-break while storing gas-

- (a) ensure that any building, road, structure or plant used in connection with a licensed facility is designed, constructed, equipped and maintained:
  - (i) in such a way as to prevent fire and

- explosion; and
  - (ii) so as to minimize the harmful effects of fires or explosions in the event they occur;
  - (b) ensure that personnel involved in the operation of gas storage facilities exercise caution in respect of anything that may cause fire or an explosion, and that such personnel follow applicable law on matters related to fire and explosions; and
  - (c) clearly indicate by a sign a place at a licensed facility where gas is stored.
- (2) A licensee shall make reasonable efforts to ensure that no person throws, leaves or creates any open or naked light, spark or flame or any burning or smouldering material at a licensed facility.
- (3) A licensee shall provide adequate fire extinguishing equipment and maintain such equipment in good working condition in accordance with these Rules, applicable law and the best international petroleum industry practices and pursuant to directions issued by the Authority.
- (4) A licensee shall:
- (a) position the equipment described in subrule (3) in accessible places at a licensed facility; and
  - (b) in any event, not less than once a year, test the equipment described in subrule (3) pursuant to the applicable law.
- (5) A licensee shall establish a fire emergency plan to be employed in the event of a fire at a licensed facility that shall-
- (a) include a suitable and adequate fire-fighting plan that comprises of-
    - (i) the locations and types of all fire-fighting equipment; and
    - (ii) an action plan that identifies, among other things, assembly points and the tasks of all employees;
  - (b) include provisions for the training and retraining of employees to deal with a fire emergency situation, the records of which shall be preserved;
  - (c) be provided to employees in or on the relevant premises; and
  - (d) be made available to the Authority on request.

Occurrence of hazardous situation or act

35.-(1) In the event of the occurrence of any incident that adversely affects the normal operation of the facility or causes a significant risk to public health and safety (or any near-miss that would have done so had it occurred), the licensee shall immediately notify the Authority and in any event within twenty-four (24) hours after the incident or near-miss, as the case may be.

(2) Subject to subrule (1), the licensee shall submit to the Authority a report regarding the incident within fourteen (14) days after the incident or near-miss occurred.

Suspension of operations

36.-(1) A licensee shall not fully or partially suspend its operations without notifying the Authority at least thirty (30) days before the intended date of full or partial suspension.

(2) The notification referred to in subrule (1) shall be in writing stating the reasons for the suspension.

(3) The Authority shall, within fourteen days after receipt of the notification, inform the licensee whether to suspend or continue with the operations or as the Authority may direct.

Operations and maintenance manual

37.-(1) A licensee shall promptly after, and in any event within three (3) months of being issued with a licence prepare and maintain an operations and maintenance manual containing procedures for operation, corrosion control, integrity management, maintenance and repair; and upon request, file a copy of such manual with the Authority for review.

(2) The operations and maintenance manual referred to in subrule (1) shall include a provision for evaluation and mitigation of issues with the facility and the licensee shall update the manual as necessary to:

(a) ensure that the contents are correct; and

(b) be able to demonstrate that the procedures contained in the manual are implemented.

(3) The operations and maintenance manual referred to in subrule (1) shall be submitted to the Authority by the licensee with comprehensive operating information and procedures to ensure safety, environmental protection and prevention of waste in the operation of the licensee's facility, including:

- (a) a list of all structures, facilities, equipment and systems critical to the operations, including:
  - (i) drawings, plans, flow sheets and schematics;
  - (ii) measurement and technical specifications;
  - (iii) safety factors, operability limits and process control set points;
  - (iv) identification of all hazardous locations and their classifications; and
  - (v) locations of safety equipment and escape routes;
- (b) a summary of the systems and procedures for the inspection, testing and maintenance of all structures, facilities, equipment and systems critical to the operations; and
- (c) the organizational structure for the facility which:
  - (i) clearly explains the authority and reporting relationship within the structure; and
  - (ii) provides the contact information and position of the person accountable for the operations and maintenance manual and of the person responsible for implementing it.

Decommissioning procedures

38.-(1) A licensed facility may, subject to the provisions of the Act and these Rules, be decommissioned.

(2) A licensee seeking to decommission a licensed facility shall notify the Authority not less than two (2) years prior to such decommissioning in order to enable the Authority make necessary inspections and to issue the necessary approvals.

(3) Without prejudice to subrules (1) and (2), a licensee shall ensure facility is decommissioned in all respects in accordance with the applicable law.

Site restoration

39.-(1) A licensee shall be responsible for the restoration of the site upon which the facility is located.

(2) The Authority shall, after confirming the place where licensed facility was constructed, has been returned to its original state by the licensee, issue a certificate of compliance to such licensee.

(3) For the purposes of subrule (1), “restore” (and its derivatives) means to:

- (a) return the area on which a licensed facility is located to its original and natural state as it was prior to the installation of such facility; or
  - (b) render the area on which a licensed facility is located, or part thereof, compatible with its intended after-use, including:
    - (i) removing buildings, structures, plant and debris;
    - (ii) establishing compatible contours and drainage;
    - (iii) replacing top soil, re-vegetation, slope stabilization; and
    - (iv) infilling excavations.
- (4) The Authority shall, before issuing a certificate of compliance to the licensee under subrule (2), consult the Council.

PART VII  
EMERGENCY RESPONSES

Emergency  
response plan

40.-(1) A licensee shall prepare and maintain an emergency response plan for the licensed facility in accordance with the best international petroleum industry practices and submit a copy to the Authority for review on request.

(2) A licensee's emergency response plan shall contain procedures for how to respond to and mitigate the effects of any reasonably foreseeable event that might compromise safety or environmental protection at the licensee's facility.

- (3) An emergency response plan shall provide for:
- (a) contingency plans;
  - (b) a method of classifying incidents and response actions for specific incidents;
  - (c) internal and external notification, communication and reporting procedures;
  - (d) procedures for accessing essential safety and environmental information;
  - (e) organizational structure and resources to manage the emergency, including trained personnel, equipment and facilities;
  - (f) duties, responsibilities and authorities of all personnel involved in the emergency response,

- including job descriptions and checklists;
  - (g) communication protocols and coordination and liaison measures with relevant governmental emergency response organizations;
  - (h) a process for periodic review and updates of emergency response plans and personnel evacuation plans;
  - (i) a description of the safety equipment and medical equipment;
  - (j) communication systems designed and protected to enable operation in an emergency;
  - (k) all reasonably practicable steps to ensure safety and environmental protection;
  - (l) prompt and effective response to a notice of each type of emergency, including gas detected inside or near a building; and
  - (m) natural disaster.
- (4) The licensee of a facility shall:
- (a) update the emergency response plan for the licensed facility as necessary;
  - (b) conduct training exercises in carrying out emergency response plans;
  - (c) establish and maintain a liaison with the agencies that may be involved in an emergency response activity at its facility, including the appropriate fire, police and other public responsible institutions, and consult with them in developing and updating its emergency procedures manual;
  - (d) take all reasonable steps to inform persons who may be associated with an emergency response activity at its facility of the practices and procedures to be followed and make available to them the relevant information from the emergency procedures manual; and
  - (e) develop and implement the continuing education programmes for police, fire department, medical facilities other appropriate organizations and agencies and the public residing in proximity to the facility to inform them of its location, potential emergency situations involving the facility and the safety procedures to be followed in the event of an

emergency.

Control and  
response to gas  
leakage

41.-(1) Unless otherwise required under these Rules, a licensee shall at all times ensure that it is capable of adequately responding to gas leakages.

(2) A licensee shall, in the event of a gas leakage:

(a) take all necessary steps pursuant to the best international petroleum industry practices and the emergency response plan prepared and maintained in accordance with these Rules as may be necessary to remedy the effect of such gas leakage;

(b) unless otherwise stated in these rules, as soon as practicable, and in any event, not more than twenty-four (24) hours after the occurrence of such gas leakage, update the Authority regarding such gas leakage with all details then available.

(3) In the event a licensee fails to comply with subrule (2) within the period of time established by the Authority, the Authority may, by written notice, order such licensee to take such steps as the Authority may require in order to remedy the effect of such leakage at the licensee's cost.

(4) Any licensee who, without reasonable excuse, fails to comply with an order of the Authority issued pursuant to subrule (3), commits an offence and shall on conviction, be liable:

(a) to a fine of not less than one hundred million Tanzanian Shillings or to imprisonment for a term of not less than ten (10) years or to both; or

(b) in case of a body corporate, to a fine of not less than five hundred million Tanzanian Shillings.

#### PART VIII

#### RECORDS, REPORTING AND INFORMATION

Records  
keeping

42.-(1) A licensee shall at all times keep and maintain complete and accurate records and data related to its regulated activity.

(2) A licensee shall comply in all respects with applicable law concerning keeping and maintaining reports, records and returns related to its regulated activity.

Maintenance of records, provision and disclosure of information

43.-(1) A licensee shall, in accordance with the Authority's requirements and pursuant to the Authority's directions, promptly provide to the Authority documents, records, samples and information related to its regulated activity.

(2) Any licensee who refuses to furnish any information or statements as required under subrule (1) or furnishes false information or statements to the Authority shall be liable on conviction to a fine of not less than ten million Tanzanian Shillings or to imprisonment for a term of not less than two (2) years or to both.

Obligation to provide information to NPGIS

44.-(1) A licensee shall, through the internet, furnish the NPGIS periodic reports and other information as may be prescribed by the Authority.

(2) A licensee who fails or refuses to provide information to the NPGIS as required by subrule (1) commits an offence and its licence shall be subject to suspension or revocation pursuant to these Rules.

PART IX  
GENERAL PROVISIONS

Staffing plan and training program

45.-(1) Every licensee shall have a staff plan updated regularly which shall provide for:

- (a) the number of persons to operate its facility safely; and
- (b) the competencies required for each position.

(2) The licensee shall ensure that its facility are at all times staffed with competent personnel in accordance with the plan referred to in sub rule (1):

- (a) all personnel have, before assuming their duties, the necessary experience, training and qualifications and are able to conduct their duties safely, competently and in compliance with these Rules; and
- (b) records of the experience, training and qualifications of all personnel shall be kept and made available to the Authority on request.

(3) A licensee's training program shall contain instructions for all personnel directly involved in the operation of its facility respecting:

- (a) the safety practices and procedures applicable to the operation of the facility;
- (b) responsible environmental practices and procedures in the operation of the facility;
- (c) the proper operating procedures for the equipment that they could reasonably be expected to use; and
- (d) the emergency procedures set out in the operation and maintenance manual referred to in Rule 39.

Inspections

46.-(1) A licensee shall:

- (a) conduct annually a complete inspection of its facility to determine whether the facility is in compliance with these Rules, the conditions of the licence and the directions of the Authority; and
- (b) maintain and upon request, submit to the Authority records of all the conducted inspections.

(2) An inspection under subrule (1) shall be conducted during each calendar year following the grant of the licence but with intervals not exceeding eighteen (18) months.

(3) The Authority may:

- (a) by a notice direct the licensee to test, inspect or perform an engineering assessment of all or any part of its facility in accordance with the directions in the notice where the Authority considers that the notice is warranted by concerns related to safety or environmental protection; and
- (b) request the licensee to submit a report respecting the test, in section or assessment by the dead line in the notice containing the request.

(4) Where the licensee engages a contractor to perform an inspection under subrule (1) or a test, inspection or engineering assessment referred to in subrule (3), the contractor shall be independent of:

- (a) the contractor who constructed the facility; and
- (b) any person who participated in the fabrication of any of the components to be tested.

(5) Where an annual inspection under subrule (1) or a test, inspection or engineering assessment referred to in subrule (3) is performed by the licensee, it shall be performed under the direct supervision of an independent agent engaged by the licensee for the purpose who has sufficient expertise,

knowledge and training to perform it competently

Compliance  
audit

47.-(1) A licensee shall, as directed by the Authority from time to time, conduct an audit in compliance with:

- (a) these Rules;
- (b) records related to the facility, including prescribed programs, to determine whether the licensee was, during the period covered by the audit, in compliance with the Act, these Rules and the licence; and
- (c) the satisfactory competency of personnel in supervisory or operational positions at its facility; and
- (d) applicable law.

(2) The compliance audit shall be conducted by an independent auditor or any other expert hired by the Authority.

(3) The costs associated with the audit described in subrule (2) shall be paid by the Authority.

Health, safety  
and  
environment

48.-(1) A licensee shall comply with the requirements of all applicable environmental laws and standards related to a licensed facility.

(2) A licensee shall, while storing gas take such precautions and exercise such care as may be reasonable under the circumstances in order to:

- (a) observe strict health, and industrial safety standards in order to avoid endangering the safety or health of any person, or the safety of any person's property;
- (b) take all necessary preventive measures to reduce pollution resulting from operating its storage plants;
- (c) prevent the risk of significant environmental harm; and
- (d) perform an environmental audit related to its licensed activity in accordance with applicable environmental laws.

(3) A licensee shall dispose of waste in a manner and at a place intended for the disposal of gas waste products.

(4) When a substance escapes from a facility and it appears to the Authority that the substance may not otherwise be contained and cleaned up in the immediate near term, the

Authority may:

- (a) require a licensee to take any steps that the Authority deems necessary to contain and clean up, to the satisfaction of the Authority and the Ministry responsible for Environment, the substance that has escaped and to prevent further leakage of the substance; or
- (b) enter on the area where the substance has leakage and conduct any operations it deems necessary to contain and clean up the substance that has leakage and to prevent further leakage of the substance where the licensee has failed to take the required steps.

(5) When the Authority enters on an area pursuant to subrule (4)(b):

- (a) every person responsible for the escape of the substance, the licensee and every officer and employee of such licensee shall, until the operations conducted by the Authority are completed, obey the orders concerning the operations given by the Authority or a person or persons the Authority places in charge of the operations;
- (b) the Authority may recover, deal with and dispose of the escaped substance as where it were the property of the Authority, and where any escaped substance is sold, apply the proceeds to pay the costs and expenses of the operations conducted by the Authority; and
- (c) the Authority may engage any persons it deems necessary to conduct any of the operations on its behalf.

(6) Where any operations are conducted pursuant to subrule (5):

- (a) by a licensee or other person under subrule (4)(a) and such person requests the Authority to do so; or
- (b) by or on behalf of the Authority under subrule (4)(b), the Authority may determine the costs and expenses of the operations and direct whom and to what extent they shall be paid.

(7) A licensee shall appoint an adequate number of

health, safety and environment officers to address and be responsible on health, safety and environment matters related to the licensed activity.

Visitors

49. A licensee of a facility shall take all reasonable steps to ensure that all visitors to its facility are familiar with the components of the safety program necessary for their personal safety before they enter the site for the facility and comply with the safety program while they are on the site of the facility.

Compensation  
for loss suffered

50.-(1) A licensee shall be obliged to compensate any person who has suffered any injury, loss of life, property or the environment as a result of the licensed activity.

(2) A person who suffers injury, loss of life or property or environment as a result of a licensed activity shall first lodge a complaint with a licensee whose licensed activity has caused such loss with a view to reaching an amicable settlement.

Cap. 414

(3) In the event no settlement is reached under subrule (2), the person who has suffered injury or loss may refer the matter to the Authority for decision and the Authority shall deal with such matter as if it is a complaint lodged pursuant to the provisions of the EWURA Act.

(4) For the purpose of this rule, a person includes an administrator, executor or executrix of the estate of the deceased person.

Confidential  
information

51.-(1) All information submitted to the Authority for tariff application shall be presumed not to be confidential and shall be available for public record, scrutiny and inquiry.

(2) A licensee may request the Authority not to circulate specific data or information that it has provided to the Authority, provided, that only the Authority shall determine whether or not such information is confidential.

(3) The Authority shall limit or prohibit the publication of any information to the public in the event it makes a determination that such information is confidential.

Investigation of  
facility

52.-(1) The Authority may initiate an investigation of the licensed activity in relation to technical, economic and safety issues, including:

(a) incidents that result in damage of any facility,

- injury or loss of life or property; and
- (b) in relation to activities of a licensee.
- (2) The Authority may initiate an investigation:
  - (a) upon receipt of a complaint by any third party; or
  - (b) on its own motion.
- (3) The Authority may investigate and require a licensee to comply with:
  - (a) the relevant quality, safety and reliability design standards applicable to the licensed activity; and
  - (b) the applicable environmental law.
- (4) Upon investigation, where the Authority concludes that a licensee has not complied with any condition of its licence, these Rules or any applicable law, the Authority may impose penalties pursuant to the applicable law.

Power to enter for inspection and close gas storage facility

- 53.-(1) The Authority shall have the right to enter the premises for the purpose of conducting an inspection to any facility.
- (2) During inspection the Authority may:
    - (a) take samples of any substance or articles stored in a facility;
    - (b) make copies or take extracts from any book, accounts or records kept on a licensed facility;
    - (c) inspect machinery, equipment, appliances, meters, fittings and apparatus; and
    - (d) inspect any common carrier, facility, or installation.
  - (3) Notwithstanding any provision in these Rules, an inspector may:
    - (a) enter upon any facility and close it down where a licensed activity is being conducted in contravention of these Rules; and
    - (b) invoke any other remedy available to the Authority under applicable law, including rules and regulations covering the inspection and monitoring of facilities.
  - (4) An inspector may while discharging his obligation under subrule (3) seek the assistance of any law enforcement institutions including the police and such institution shall provide the requested assistance to the inspector.

Prohibited acts

- 54.-(1) A licensee shall not:

against  
inspectors

- (a) hinder or obstruct the Authority in the exercise of any of the powers conferred upon it under these Rules;
- (b) use abusive, threatening or insulting language to an employee of the Authority;
- (c) deny or fail to comply with a requirement, direction or notice of the Authority; and
- (d) where required by the Authority to answer a question, refuses or fails to answer such question to the best of his knowledge, information and belief.

(2) A person who contravenes the provisions of subrule (1) or who commits an offence shall be liable, on conviction, to a fine of not less than ten million Tanzanian Shillings or to imprisonment for a term not exceeding two (2) years or both.

Transitional  
provision

55. A person who conducts activities in connection with a facility whether licensed or not shall within twelve (12) months after the coming into force of these Rules, adjust its operations and upgrade its facilities in order to comply with the provisions of these Rules.

Penalties and  
remedial  
measures

56. The Authority may, without prejudice to other specific remedies, powers and penalties prescribed in these Rules and applicable law, where it determines that a licensee has contravened these Rules or applicable law:

- (a) issue a warning;
- (b) issue a compliance order restraining a licensee from further violation of these Rules, licence conditions, the Act or applicable law;
- (c) restrict the conduct of a licensed activity;
- (d) order a licensee to remedy any situation as the result of such violation; or
- (e) issue a partial suspension of a licence for such period as the Authority may determine.

Appeals

57. A person who is aggrieved by the decision, direction or order of EWURA or an authorised officer under these Rules may, within fourteen (14) days from the date of the decision, direction or order, appeal to the Fair Competition Tribunal in accordance with the provisions of the Fair Competition Act.

Cap. 385

Revocation  
GN. No.  
182/2019

58.-(1) The Petroleum (Natural Gas) (Storage) Rules, 2019 are hereby revoked.

(2) Notwithstanding the revocation of the Petroleum (Natural Gas) (Storage) Rules, 2019 , all orders, exemptions or directives made or issued or deemed to have been made or issued under those Rules shall be deemed to have been made under these Rules, and shall remain in force until specifically revoked by direct reference or otherwise expire or cease to have effect.

FIFTH SCHEDULE

*(Made under rule 12(2)(h))*

CORPORATE INTEGRITY PLEDGE

1. We ..... do believe that, unethical business practices and corruption have been one of the biggest impediments to sustainable economic growth and prosperity in Tanzania and has been eroding public confidence in the Government and its institutions ability to serve its citizen fairly;
2. As a company involved in petroleum activities in Tanzania, we acknowledge our responsibility to ensure good governance because it is necessary for continued growth and business sustainability. We also acknowledge the importance of conducting our business with the highest standards of transparency, ethics and integrity;
3. While the Government and Prevention and Combating of Corruption Bureau (PCCB) have their own initiatives for reducing corruption and other unethical practices, we realize that those initiatives cannot succeed without individual and collective commitment from business community to level the playing field and to build integrity in the business environment.
4. In view of the foregoing, we pledge the following:
  - (a) not, through any of our employees, representatives or agents, to involve in any form of bribery, corruption whether direct or indirect or unethical behaviour in whatever form;
  - (b) to clearly communicate with all employees and business partners about stance on fighting all forms of bribe, corruption and other unethical behaviour in whatever form;
  - (c) to maintain and share with our employees the code of conduct which will be a guide in executing our daily business operations in order to comply with high ethical standards of conduct and anti-corruption laws;
  - (d) to conduct regular training on anti-bribery and anti-corruption to our employees and business partners in order to ensure that they are updated and knowledgeable of the Company' s policy in implementing this pledge;
  - (e) to conduct integrity risk assessment that will help to identify corruption risks inherent in business operations and apply effective measures;
  - (f) to maintain appropriate financial reporting mechanisms that are accurate and transparent;
  - (g) to enter into integrity pacts with business partners and government agencies when dealing with procedures related to the bidding and procurement of supplies, materials, equipment, and construction;
  - (h) to maintain channels by which employees and other stakeholders can raise ethical concerns and report suspicious circumstances in confidence without risk of reprisal, and a designated officer will be tasked with investigating all reports received and taking appropriate action;

*Petroleum (Natural Gas) (Storage)*

*GN. No. 966 (contd.)*

- (i) to refrain from engaging in business with parties who have demonstrated unethical business practices;
  - (j) not to engage in any arrangements that undermines or is prejudicial to the national security; and
  - (k) to maintain a proper insurance cover against losses, injuries or damage to environmental, communities, individual and properties that may be occasioned in the course of carrying business.
5. To ensure collective action in preventing any unethical and corrupt behaviour and the highest standards of ethics, integrity and transparent in business transactions in Tanzania, we commit to:
- (a) support a nationwide initiative intended to create fair market conditions, transparency in business transactions, and ensure good corporate governance;
  - (b) participate in roundtable discussions, meetings, and forum to identify the key concerns and current problems affecting the private sectors related to integrity and transparency in business transactions;
  - (c) share the international best practices, tools and concepts which are intended to be used by all participating entities to achieve the goals of the nationwide integrity behaviour initiative;
  - (d) participate in the creation of key measures and control activities intended to ensure transparency, integrity and ethical business practice;
  - (e) support the development of an audit and certification program (including a training program for advisers and auditors) that will offer a toolbox for enterprises to introduce and implement ethical practices in their business processes; and institutionalize the whole process to promote sustainability of the integrity initiative.
6. To confirm our commitment to this pledge, we hereby commit ourselves as a company and individuals to be bound in all aspects by this integrity pledge and shall be responsible for all the consequences which may result to non-compliance to this pledge.
7. To fight any form of corruption practices whereby zero tolerance action will be taken against any employee, staff or other person involved in corruption in relation to the business, regardless of position and status;
8. To report any corrupt or unethical practices that occur in the business place to the appropriate Authority;
9. We shall also ensure that our employees and agents comply with this pledge and in any event of non-compliance we commit ourselves to be responsible for their action.

Signed by ..... for and on behalf of
