wadogo D1 hadi kundi la watumiaji wa kati T1 akidaiwa kutumia umeme zaidi ya unit 75 kwa mwezi. *(Made by the EWURA Board of Directors through its Circular Resolution No.16  
of 27<sup>th</sup> August, 2021)*

**1.0 Background Information**

On 15<sup>th</sup> June 2021, the Energy and Water Utilities Regulatory Authority (“EWURA”) (“the Authority”) received a complaint by Mr. Michael R. Benson of Itahwa Butahanju Village, Karabagaine Ward, Bukoba Rural Area, Kagera Region (“the Complainant”) against the Tanzania Electric Supply Company Limited (“TANESCO”) (“the Respondent”). The Complainant is complaining against the Respondent for being transferred from customer tariff category D1 to customer tariff category T1.

The Complainant whose meter number is 54183728259 alleges that early 2019 the Respondent transferred him to tariff category T1 for allegedly purchasing more than 75kwh per month for three consecutive months. The Complainant disputed the Respondent’s action claiming that his consumption was the same. However, the complainant hired the Electrical contractor to check his electricity infrastructure at his premises. The

Contractor discovered that the Complainant meter had a leakage causing the complainant to consume electricity excessively. The Complainant repaired the meter and informed the Respondent. The Complainant claims that he visited the Respondent's office several times to request the Respondent to transfer him back to customer tariff category D1 as the problem has been resolved and also on the ground that his monthly consumption is still below 75 units but no response was received from the Respondent. Following the Respondent's reluctance to resolve the matter, the Complainant filed this complaint praying for Orders that the Respondent be compelled to restore his account to tariff category D1 because his average monthly consumption is below 75kWh.

Upon receipt of the complaint, on 18<sup>th</sup> June 2021, the Authority wrote to the Respondent instructing to present their defense to the complaint in terms of Rule 6 (1) of the Energy and Water Utilities Regulatory Authority (Complaints Handling Procedure) Rules, GN No. 428/2020.

On 19<sup>th</sup> July 2021, the Respondent, filed its defense and informed the Authority the following;

- a) that, the Respondent acknowledges receipt of a summons of a complaint for Mr. Michael Rwegashora Benson located at Itahwa Butahanju Village, Karagabaine Ward in Bukoba rural areas,
- b) that, the Respondent did not cause an electricity leakage at the Complainant's meter. Therefore, it is the Complainant's responsibility to ensure that all electrical infrastructure at his premises are well secured; and
- c) that, the Respondent transferred the Complainant's account to customer tariff category T1 because the Complainant did not meet the minimum requirement for customer tariff category D1.

Mediation meeting involving both parties was conducted on 3<sup>rd</sup> August 2021 at ELCT Bukoba Hotel in Kagera Region. At the end of the mediation session, the matter was settled and parties agreed that the Respondent shall restore

the Complainant account from customer tariff category T1 to D1 by 15<sup>th</sup> September 2021.

The agreed term was reduced into writing as required by Rule 14 (4) of the Energy and Water Utilities Regulatory Authority (Complaints Handling Procedure) Rules, GN. No 428/2020 and contained in the Settlement Form.

## **2.0 Decision**

The parties have reached an agreement and, pursuant to Rule 14 (5) of the Energy and Water Utilities Regulatory Authority (Complaints Handling Procedure) Rules, GN. No 428 of 2020, the said agreement is registered as an award of the Authority. Each party shall bear its own costs.
