

REF: PPR/18 - 06/1

**PUBLIC NOTICE ON CAP PRICES FOR PETROLEUM PRODUCTS EFFECTIVE
WEDNESDAY, 6th JUNE 2018**

The Energy and Water Utilities Regulatory Authority (EWURA) hereby publishes Cap Prices for petroleum products, applicable in Tanzania Mainland. These retail and wholesale prices are applicable effective **Wednesday, 6th June 2018**. Hereinafter, kindly, take note of the following:

- (a) Retail and wholesale prices for all petroleum products imported in the country through Dar es Salaam port have changed compared to prices that were published on 2nd May 2018. For the month of June 2018, retail prices of Petrol, Diesel and Kerosene have increased by TZS 55/litre (equivalent to 2.47%), TZS 19/litre (equivalent to 0.88%), and TZS 36/litre (equivalent to 1.68%), respectively. Similarly, compared to the publication of last month, wholesale prices of Petrol, Diesel and Kerosene have increased by TZS 54.85/litre (equivalent to 2.61%), TZS 18.83/litre (equivalent to 0.93%) and TZS 36.08/litre (equivalent to 1.78%), respectively. The changes in local prices of petroleum products are mainly due to an increase in the world oil market prices as well as increases in BPS premiums, demurrage charges and depreciation of the Tanzanian Shilling against the United States Dollar, the currency used in the procurement of petroleum products
- (b) Retail and wholesale prices for Petrol and Diesel imported in the country through Tanga port have also increased compared to prices that were published on 2nd May 2018. For the month of June 2018, retail prices of Petrol and Diesel **in the Northern regions** have increased by TZS 9/litre (equivalent to 0.40%) and TZS 39/litre (equivalent to 1.83%), respectively. Moreover, wholesale prices of Petrol and Diesel have increased by TZS 8.84/litre (equivalent to 0.42%) and TZS 38.74/litre (equivalent to 1.93%). The increase in prices of Petrol and Diesel in Tanga region is attributed to the increase in the world oil market prices, changes in BPS premium and depreciation of the Tanzanian Shilling against the United States Dollar, the currency used in the procurement of petroleum products. Due to the depletion of kerosene product in Tanga region, Petrol Station Operators in the Northern regions are advised to source the product from Dar es Salaam and therefore, the retail price of Kerosene for the Northern regions will be based on the cost of the product received through Dar es Salaam port and bridging cost to Northern regions.
- (c) The Authority would like to remind the public that these cap prices can be accessed through mobile phones by dialling ***152*00#** and then following the provided instructions. This service is free of charge and is available in all mobile phone service providers in the country.
- (d) In line with the prevailing sector legislation (**Petroleum Act, 2015, section 166**), prices of petroleum products are governed by rules of demand and supply. EWURA shall continue to encourage competition in the sector by making available petroleum products pricing information including cap prices. This information on prices is intended to enable stakeholders make informed decisions on petroleum prices at any particular time.
- (e) Oil Marketing Companies are free to sell their products at a price that gives them a

competitive advantage provided that, such **price does not exceed the price cap for the relevant product as was computed using the approved formula, which was gazetted through the Government Notice No. 163 published in April 2018.**

- (f) All petrol stations are required to publish petroleum product prices on clearly visible boards. The price boards should clearly show prices charged, discounts offered as well as any trade incentives or promotions on offer. Consumers are encouraged to purchase from stations that sell products at the most competitive prices and offer better services. **It is an offence not to have prices published on boards located in clearly visible places in front of petrol stations. Failure to adhere to this directive will attract punitive measures from EWURA.**
- (g) Retailers must issue receipts printed from an Electronic Fiscal Pump Printer (EFPP) with respect to all sales that they make and consumers are required to **demand and keep those receipts** that clearly show the name of petrol station, date on which such purchase was made as well as, the type of petroleum product (fuel) and price per litre for every purchase they make. This can be used as an exhibit in case of a complaint lodged in the event that the selling price is above the cap price or in case the products sold do not meet the approved specifications and also, provide an assurance that appropriate government taxes on petroleum products purchased are fully accounted for recovery from the Retailers.

A: RETAIL PRICES

Town	Cap Prices		
	Petrol (TZS/Litre)	Diesel (TZS/Litre)	Kerosene (TZS/Litre)
Dar es Salaam	2,282	2,164	2,192
