

UNITED REPUBLIC OF TANZANIA  
MINISTRY OF ENERGY  
ENERGY AND WATER UTILITIES  
REGULATORY AUTHORITY  
(EWURA)

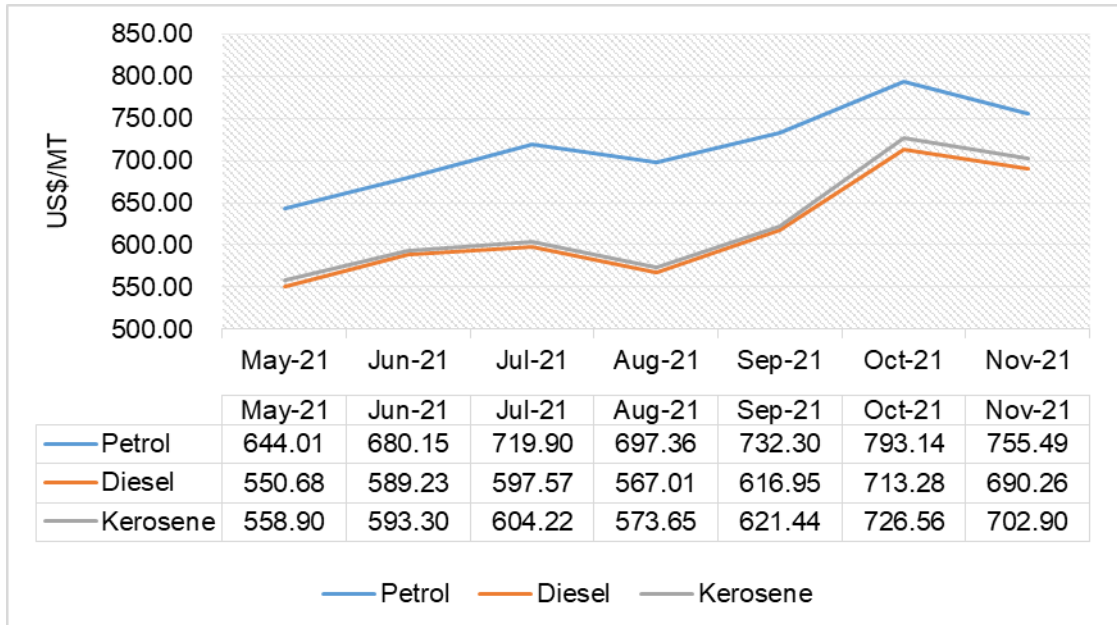

*REF: PPR/2021 - 12/1*

**PUBLIC NOTICE ON CAP PRICES FOR PETROLEUM PRODUCTS EFFECTIVE  
WEDNESDAY, 1<sup>ST</sup> DECEMBER 2021**

The Energy and Water Utilities Regulatory Authority (EWURA) hereby publishes Cap Prices for petroleum products, applicable in Tanzania Mainland. These retail and wholesale prices are applicable effective Wednesday, 1<sup>st</sup> December 2021. Hereinafter, kindly take note of the following:

- (a) As shown in **Figure 1**, prices of petroleum products in the world market have been increasing on a monthly basis whereas:
- (i) the price of petrol has increased by 23% from US\$ 644.01/MT in May 2021 to US\$ 793.14/MT in October 2021. During this period, the price of petrol in the country should have increased by a total of TZS 241/litre to the price of TZS 2,610/litre in December 2021;
  - (ii) the price of diesel has increased by 30% from US\$ 550.68/MT in May 2021 to US\$ 713.28/MT in October 2021. During this period, the price of diesel in the country should have increased by a total of TZS 311/litre to the price of TZS 2,492/litre in December 2021; and
  - (iii) the price of kerosene has increased by 30% from US\$ 558.90/MT in May 2021 to US\$ 726.56/MT in October 2021. During this period, the price of kerosene in the country should have increased by a total of TZS 120/litre to the price of TZS 2,235/litre in December 2021.

**Figure No. 1: The Trend of Prices of Petroleum Products in the World Market**

- (b) In order to reduce the effect of increasing petroleum products prices, on 5<sup>th</sup> October 2021, the Government reduced fees and charges of Government Institutions imposed on petroleum products by TZS 29.38/litre in petrol prices, TZS 30.05/litre in diesel prices and TZS 26.99/litre in kerosene prices.
- (c) In addition to that, the Government has continued to take further actions to reduce local prices of petroleum products in a bid to minimise the effect of the continued increase in the world market prices. As such, in December 2021, the Government has suspended collection of the petroleum fees of TZS 100/litre in petrol and diesel.
- (d) It has been noted that the world market prices begun to decline in November 2021. Since the prices that prevail in the world market are reflected in the local market after two months, these reduced prices are expected to be reflected in the local prices in January 2022.
- (e) Furthermore, as it was stated earlier, the Tanzania Petroleum Development Corporation (TPDC) participated in the Bulk Procurement System for supply of petroleum products in December 2021 and won to supply two cargoes of diesel. Based on the vessel line up at the Dar es Salaam port, the said products once supplied are expected to lower prices of petroleum products in February 2022.
- (f) The Government is continuing to follow up on the trend of the world market prices and taking all necessary measures to ensure that the petroleum products supply chain and the economy at large is not affected if the prices will continue to increase significantly. This will include further review of other charges and taxes.

- (g) Following the aforementioned mitigating efforts by the Government, retail prices for the month of December 2021 will be as follows:
- (i) for petrol, the price will be TZS 2,510 per litre in Dar es Salaam while the price in Tanga and Mtwara will be TZS 2,525 per litre and TZS 2,569 per litre, respectively;
  - (ii) for diesel, the price will be TZS 2,392 per litre in Dar es Salaam while the price in Tanga and Mtwara will be TZS 2,413 per litre and TZS 2,423 per litre, respectively; and
  - (iii) for kerosene, the price will be TZS 2,235 per litre in Dar es Salaam while the price of the product in all other regions has been determined based on the cost of the product received through Dar es Salaam port and the transport cost to the respective regions.
- (h) EWURA would like to remind the public that these cap prices can be accessed through mobile phones by dialling \*152\*00# and the following provided instructions. This service is free of charge and is available in all mobile phone service providers in the country.
- (i) In line with the prevailing sector legislation (Petroleum Act, 2015, section 166), prices of petroleum products are governed by rules of demand and supply. EWURA shall continue to encourage competition in the sector by making available petroleum products pricing information including cap prices. This information on prices is intended to enable stakeholders to make informed decisions on petroleum prices at any particular time.
- (j) Oil Marketing Companies are free to sell their products at a price that gives them a competitive advantage provided that, such price does not exceed the price cap for the relevant product.
- (k) All petrol stations are required to publish petroleum product prices on clearly visible boards. Consumers are encouraged to purchase from stations that sell products at the most competitive prices and offer better services. It is an offense not to have prices published on boards located in clearly visible places in front of petrol stations. Failure to adhere to this directive will attract punitive measures from EWURA.
- (l) Retailers must issue receipts printed from an Electronic Fiscal Pump Printer (EFPP) for all sales that they make. In addition, consumers are required to demand and keep those receipts that clearly show the name of the petrol station, the date on which such purchase was made as well as, the type of petroleum product (fuel) and price per litre for every purchase they make. This can be used as an exhibit in case of a complaint lodged in the event that the

selling price is above the cap price or in case the products sold do not meet the approved specifications and provide an assurance that appropriate government taxes on sales of petroleum products are fully accounted for recovery from the Retailers.

**TABLE A: RETAIL PRICES**
